My RESUME

Key Achievements

- Attained high grades in programming and development at school.
- Make a web interface for a « Energy Controller », from wireframes to design with a logo, graphic chart or programming with a customizable customer interface, using data from electric meter and make some comparison.
- Cooperated in and completed team project on a website in web development with PHP, working to a strict deadline.
- Working on a big project for training myself in development object-oriented programming

Web Experiences

Self-directed learning **Web developer** Blois - FRANCE / In Progress

- Website where the goal is to regroup various projects for educated myself to the advanced web development.

27h Project **Web developer** Blois - FRANCE / 2017

- Allow access to a web page for register to the discovery one day formation, excepted for people who take the pass in open days.
- Programming a register form for the discovery one day formation.

Professional Experiences

Fast Food **Taller** Issoudun - Cher - FRANCE / 2017

- Order and collection of the customer.
- The teamwork, the coordination and the hygiene are the big points of this work.

Corn Castration **Farmer** Chanceaux-sur-Choisille - Tours - FRANCE / 2016

Corn Castration **Farmer** Saint-Antoine-du-Rocher - Tours - FRANCE / 2014

- A small farm that searches every summer for corn castration.
- The goal is to extract by hand a small flower in corn that allows the self-fertilization of corn and that on all the rows of corn desired.

Maintenance in Computer **@L'informatique** Chanceaux-sur-Choisille - Tours - FRANCE / 2013

- It's a company running by self employed who sells it services and a relay point service for packages.
- My role during this internship was to support the head of the agency in his daily work. (computer troubleshooting, maintenance, delivery of packages to the customers, quotation)
